Thanks for choosing the Universidad Adventista de las Antillas as your house of study. The Health Services Office requires the following, as part of the admission process and before being enrolled in the University:

**PLEASE DO NOT USE OTHER FORMS THAT ARE NOT PROVIDED BY THE UNIVERSITY. WE DO NOT ACCEPT FOTOCOPIES AND/OR FALES.** The information that you provide to the Health Services Office is for exclusive use of such. If you wish to send by mail, please send it to the address provided on the top right of this document or bring it personally to our office.

Students that enroll in the Nursing Department must assure that they meet the department’s requirements separately.

- **Medical Evaluation** front page must be filled by the student, and the doctor must fill the second page of the document. If the student is younger than 21 years old, he/she must sign as well as the parents or legal guardian.

**BEFORE SENDING THE RESULTS, VERIFY:**
- Student’s Signature and date
- Doctor’s Signature and date
- Parent’s or legal guardian Signature
- Doctor’s license number

- **P-VAC-3 vaccine certificate for students younger than 21 years old:**
  - One (1) vaccine doses against Tetanus, Diphtheria and Acellular Pertussis (DTaP) and/or reinforcement vaccine against Tetanus and Diphtheria, according to your case.
  - Two (2) vaccine doses against Common measles, German measles and mumps (MMR)
  - Three (3) vaccine doses against Hepatitis B
  - Three (3) vaccine doses against Polio (OPV/IPV) if the last vaccine was taken before being (4) four years of age.
  - Theses vaccines must be registered in the P-VAC-3 format (Vaccine Certificate-Green Paper) that the Health Department of Puerto Rico demands.

The P-VAC-3 (Vaccine Certificate) can be requested in the Public Health Unit of your city or private doctor in Puerto Rico. Please verify whether all vaccines are completed and up-to-date. **WE DO NOT ACCEPT COPIES OF THESE DOCUMENTS, BRING ORIGINAL COPIES.**

Students that **live in the United States or are International Students** must bring copies of their vaccine record; with all the vaccines and the reinforcement vaccines. When you arrive to Puerto Rico, you must make the adjustment to process and receive the P-VAC-3 that the government of Puerto Rico requires all university students to have (does not apply to applicants older than 21 years old).

- **Evidence of your Private Medical Plan**- All students registered in one class or more must be insured by a medical plan. For an extension of your private medical plan you must bring trustworthy evidence. The evidence can be the current private medical plan card in the student’s name and date of expiration or a document that certifies that the student is insured by the medical plan during the semester with date of expiration. The private medical plan requires the student to bring evidence of the status of being a full time/part time student. The evidence of being insured by a private medical plan must be brought in the day you register for the semester.

**Note:**
1. **Do not bring the documents until this checklist has been completed.**
2. When arriving to the University, confirm that the documents were received by our office and that you have obtained a Receipt that certifies the bringing of those documents.
3. Maintain a copy of these documents for your personal archive.
